

# altripan uk ltd

Quality plywood since 1968

## PRODUCT DATA SHEET

# DuroForm Hexa+

EN 314 Part 2 Class 3 | FSC® Certified

Available from stock in 6mm, 9mm, 12mm and 18mm, our DuroForm Hexa+ panel is an excellent alternative to traditional Birch plywood phenolic overlaid plywood options. With its multi-lamination core construction and Aica overlay, users of the material can expect a high end finish on this product that's been manufactured with the UK market in mind.

Specification	
Overlay	370gm Aica overlay with grey painted edges and a smooth Aica reverse 185gm
Thickness	6mm, 9mm, 12mm and 18mm available from stock – other thicknesses available on a forward basis
Dimensions	2440mm x 1220mm & 2500mm x 1220mm (18mm brown film only)
Core	Eucalyptus throughout special construction <ul style="list-style-type: none"><li>• 6mm = 5 ply</li><li>• 9mm = 7 ply</li><li>• 12mm = 9 ply</li><li>• 18mm = 13 ply</li></ul>
Properties	Special construction offers improved strength and stability
Performance	Manufactured with a phenolic glue bond throughout, achieving EN 314 Part 2 Class 3 and EN 636-3 end use class ratings
Application	Commercial vehicle, van and trailer flooring, arena seating and steps, access and loading platforms, walkways and ramps, marquee flooring and other interior/exterior applications (once suitably protected)
